Marketplace. Within DiaLog, a Marketplace (“Marketplace”) is available. The guiding principle of Marketplace is simple - we want to provide a way for users to purchase different Roche Applications or Third Party Applications (“Third Party Applications”). We do this by offering Marketplace where every Roche Application or Third Party Application is reviewed by experts and an editorial team helps users discover new applications every day. Marketplace is the One Central Point for You to Discover, Review, Learn More and Acquire the Roche Applications or Third Party Applications. Application Owners and Third Parties have the means to monitor and manage the lifecycle of their applications and configure target markets and user groups on the Marketplace.

The Marketplace also delivers the capabilities to Advertise and provide early access of new digital solutions or versions to users for supporting the exploration and validation of new concepts or releases.
